NEW-AGE TOWN PLANNING

Life made easy

Ireo Fiveriver has been carefully planned to ensure maximum comfort and convenience for its residents. The innovative city planning, traffic flow design and pedestrian links, shield the neighbourhood from noise, outside traffic and unwanted visitors. Together they add greatly to the resort-like ambience at Ireo Fiveriver.

Traffic Free Movement

- Ireo Fiveriver has controlled, gated access roads that separate the township from the sector road and neighbouring developments.
- The Inner road network and pedestrian boulevards keep the traffic away, thereby providing free and safe movement.
- It is proposed to take the busy sector road below grade, thus allowing residents to walk from home to the community facilities without crossing vehicular traffic.
